

HEALY™

VAPOR RECOVERY LOW PERMEATION HOSE

HEALY™ brand low permeation hoses are designed for use in refueling applications requiring reduced permeation rates of 10 g/m²/day to improve air quality and emissions.

Premium abuse-resistant cover compound with enhanced ozone resistance for service longevity. This premium hose provides long-lasting service with multi-fuel compatibility.

HIGHLIGHTS

- Stainless steel finish that resists corrosion and construction.
- Increased nut size for easier torque during installation.
- Coaxial HEALY™ straight thread (swivel & non-swivel), metric M-34 thread (swivel & non-swivel) and Balance-type swivel thread fitting options available.

APPROVALS/CERTIFICATIONS

- UL Listed (*Swivel and Fixed*)
- CARB certified

End Fitting Options

- 1 Fixed HEALY® straight thread (F2)
- 2 Swivel HEALY® straight thread (S2)
- 3 Fixed metric M-34 thread (F3)
- 4 Swivel metric M-34 thread (S3)
- 5 Swivel Balance-type thread (S4)
