

NEW CONSTRUCTION FITTINGS

Part # F-43U-T-F

CLAMP REQUIRED
Part #T-FS-C-40

SIZES

4x3" & 3"LCX

MATERIAL

Tank-spec fiberglass

Pipe Type	Part #	Description
4" x 3" and 3" LCX	F-43U-T-F	4"x3" FRP, 3" LCX, universal full-body termination for size-over-size and LCX pipe, dual test ports, epoxy req'd

The new full body universal fitting has integrated test ports that can be used for drainage or continuous vacuum monitoring. This fitting can be used on size over size and LCX pipes. The FU-Series full body entry fittings are fully bonded without the need for gaskets, rubber boots or clamps. They are compatible with both singlewall and doublewall monitored sumps. The FRP push insert design eliminates the need for injection ports, simplifying the assembly process.

SPECIFICATIONS

- 30-year corrosion resistant warranty
- FRP quality construction
- Compatible with all fuels and alternative fuels
- Eliminates the need for test boots
- Universal fitting for size over size or LCX
- Available for singlewall and doublewall
