B601-S Cross
Section

SIZES

- Small 25.5"
- Large 41.5"

**See page 2 for dimension drawing and dimension chart*

MATERIAL

- Fiberglass
- Epoxy coated galvanized steel

SPECIFICATIONS

- Water-tight lid prevents leaks
- Quality FRP construction, no need for gelcoat for chemical resistance
- Walk-over diamond plate cover and factory drainage tubes
- Accommodates up to 5 factory installed AST fittings depending on model
- Factory mounting points make a rack system installation simple
- 30-year corrosion warranty
- Doublewall construction can be monitored with vacuum or hydrostatically making it triennial testing exempt with continuous monitoring
- Ships under a continuous 20" Hg vacuum test

About the B600 Series

Bravo's B600 Series singlewall and doublewall transition sumps are compatible with all common motor fuels and can be ordered with standard AST fittings pre-installed. The fittings range from electrical offset (EO) to 3" compression pass-through AST fittings. This series comes standard with positive concrete anchoring and mounting points for optional rack system. Flush-mount diamond plate cover for walkover applications.
